

ULAP Teams Up with Zoom to Deliver Intelligent Collaboration Solutions in the Asia Pacific

The collaboration further strengthens ULAP's capability to support global SaaS vendors expansion into emerging markets

(MANILA, Philippines) —ULAP, provider of intelligent business solutions, today announced a partnership with Zoom Video Communications, Inc. (Zoom) to provide Zoom Phone and Zoom Cloud solutions in Singapore, Malaysia, Thailand, South Korea, Indonesia, Vietnam, Cambodia, Laos, Brunei, Hong Kong and South Korea.

This collaboration means ULAP will now offer a fully managed Zoom Phone service featuring a choice of connectivity and integration with its global secure voice network. The service also includes secure end-to-end experience support .

“Bringing your own carrier (Service Provider) to Zoom through ULAP enables customers to retain their existing corporate identity. This agreement will help fast track organizations to evolve seamlessly to a working from anywhere environment” said ULAP Chief Executive, Dominic McDonald.

“Teaming up with ULAP is a great opportunity to continue to deliver happiness for our customers throughout Asia and beyond. The combined solution from ULAP and Zoom securely extends our customers' reach into the Asia market. We look forward to strengthening our partnership throughout the coming year.” said Nathan Guy, APAC Zoom Phone Lead.

One-stop shop for all your collaboration needs

The ULAP - Zoom Phone joint solution provides cost-effective and seamless collaboration capabilities on a unified platform with one consistent enterprise experience:

- Zoom Phone with the ULAP voice solution
- Persistent Zoom chat client
- Zoom Webinars
- Video conferencing room solutions through Zoom Rooms
